RE: 17-FOIA-004 Highliner Blueprints

Dear Mr. Livingston:

We are in receipt of your request for information pursuant to the Illinois Freedom of Information Act, 5 ILCS 140/1 *et seq.*

On January 9, 2017, we received your request for the blueprints to the Highliners delivered by Bombardier between 1978 – 1979, and later retired in early 2016; as well as the blueprints to the Nippon Sharyo Highliners (“**Request**”).

We contacted you by email on January 9, advising that Metra’s Mechanical Department was seeking clarification as to which part of the blueprints you were interested in receiving. You responded that same day indicating you were looking for a multi-view blueprint of the Nippon Sharyo Highliners and the 1970's Highliners delivered by Bombardier showing the main car exterior with size dimensions and if possible, the floor plan showing seating locations. You provided us with an example of the type of blueprints you wanted.

In response to your Request, Metra’s Mechanical Department is providing you with the following drawings:

1. Outline Highliner 1501-1666 (Old Highliners built by St. Louis Car Co & Bombardier);
2. A01-001 – Nippon Sharyo Highliner with toilet room; and
3. A01-002 – Nippon Sharyo Highliner w/o toilet room

If I can be of further assistance to you, please do not hesitate to contact me.

Sincerely,

Kathleen E. Haton
