Subject: Equipment Request

Hello:

I was wondering if it is possible to obtain a copies of equipment diagrams in order to facilitate the creation of 3D models. The equipment I am interested in obtaining diagrams for are the F40PH units based on the latest rebuild, the F40PHM-2 units, 6000/7400 series coach cars, and the 8400/8500 series control cars.

If you need any further information from me, please do not hesitate to ask.

Thank you for taking the time to read this message.

Ryan Vince
